

How to make... **BALLOT BOT!**

Ingredients:

- Small box for head
- Large box for body
- Bicycle helmet
- Flexible aluminum foil duct
- Gray primer spray paint x2
- Silver spray paint x2
- Red, white, and blue paint
- Mesh fabric to cover eyes & mouth
- Extra cardboard for:
 - Ears
 - Inside tray
 - Fixture to attach bike helmet to small box

Optional Decorations:

- Star stickers
- Red, white, and blue flags or something else for antennas
- Cape

Tools:

- Box cutter
- Duct tape
- Hot glue gun
- Paintbrushes

Please make your Ballot Bot your own so we can have a big family of Alaskan Ballot Bots!

Instructions:

1. Spray both boxes with two coats of gray primer and silver paint. Wait to dry.

Body:

2. On the body, cut holes for arms and neck, as well as slot for collecting Pledge to Vote cards & voter reg forms.
 - a. Hot glue a tray inside to catch the lit that is "fed" to Ballot Bot
3. Cut aluminum foil duct to length and duct tape to body

Head:

4. Attach helmet to inside of small box by creating a fixture with extra cardboard. You will have to adjust where the helmet sits inside of the box.
5. Cut out eyes and mouth, then cover inside with mesh fabric
6. Attach ears & antennae!

Decorate the bot as you see fit and get ready for Ballot Bot to become your new neighborhood celebrity. Get Ballot Bot out there to get people HYPED about voting!
