

Board of Directors

Job Description (July 2023)

Organizational Background

The Alaska Center Education Fund (AKCEF) envisions a thriving and sustainable Alaska for future generations. Our mission is to educate and empower Alaskans of all ages to support clean air and water, encourage healthy communities, and a strong democracy. With our sister organization, The Alaska Center, we are building a movement of engaged Alaskans - the best resource for addressing the climate crisis, protecting our wild salmon legacy, and ensuring our grandchildren's children can call this place home.

AKCEF is committed to centering our work through a social justice and racial equity lens. We began internally by educating ourselves on the history of marginalized communities and the role conservation and environment protection efforts have played in oppressing those communities. We believe that by being more inclusive and integrating diverse perspectives, the AKCEF can better serve our communities and civic, climate justice, Indigenous rights, and health partners.

Within this Racial Justice Equity and Inclusion (RJEI) framework, the Alaska Center Education Fund houses a ladder of programs aimed at cultivating future leaders and increasing community engagement. Our three programs include:

- **Trailside Discovery Camp** provides outdoor education to thousands of children in southcentral Alaska.
- **Alaska Youth for Environmental Action (AYEA)** offers statewide leadership and community organizing opportunities for young leaders across ages 13-18 years.
- **Civic Engagement Program** supports non-partisan education to engage voters (including young and new voters) and create opportunities to grow civic participation.
